

Отчет по Верификация, отладка и тестирование существующих агентов (GetLakesByAreaAgent)

Есть проблемы с агентом (GetLakesByAreaAgent). В системе не отображается результат выполнения агента. Моё предположения заключается в том, в папке sc-web есть файл api.py где функция self.finish() вызывается неверно или в файле неверно переданы аргументы. Да и если будет переход на новую ветку 0.7.0. Данный агент ,скорее всего, придётся переписывать. Также не работают агенты во всем модуле lekes_module.
